Middle School Summer Assignments **June 2016**

Below is important information for middle school summer assignments. The assignments for incoming 6th, 7th and 8th grade students were developed to enhance their analytical and critical thinking skills during the summer months. In addition, the assignments provide students with a springboard for new learning in the fall.

Non-Honors Course(s)

Students enrolled in middle school non-honors English or math courses are encouraged to participate in an optional summer assignment. Summer assignments for non-honors science and social studies courses will be developed for next summer.

Honors Course(s)

All students enrolled in a middle school honors course in English, social studies, math, and/or science will be required to complete a summer assignment for the course.

All summer assignments, optional and required, are listed on the homepage of the district website under Summer Assignments. You can access the site directly by visiting www.woboe.org. If you are unable to download and print the assignment(s), please contact the building principal of the school your child will be attending in September and a hard copy will be made available for you to pick up at the school.

If you have a question about an assignment, please communicate with the appropriate content supervisor listed below.

Have a wonderful summer!
