Welcome!

The SchoolMessenger app allows schools and school districts to inform you about school-related emergencies, school closures, attendance or other school-related issues.

Once you've created your account, we'll automatically link the records associated with your email address. You can then:

- View the records associated with your account - student, staff, parent records.
- Review the last 30 days-worth of messages for all your associated records.
- View your contact information and configure how you would like to receive notifications.

You will find all of these messages in an easily-accessible inbox. With flexible preference controls, most kinds of communication can be configured to be accessed exclusively via the SchoolMessenger app.

SchoolMessenger and the TCPA

The Telephone Consumer Protection Act (47 U.S.C. 227) is a law that was passed by the US Congress in 1991. This law places restrictions on telephone solicitations and the use of automated telephone equipment, protecting the public from receiving unwanted phone calls.

While schools enjoy exemptions from some of these restrictions, **the preference configurations within the SchoolMessenger App allow you to set your consent state ("yes" or "no") for each phone number associated with your account.** With the exception of emergency calls, which cannot be exempted, any phone number whose consent state is set to "no" will not receive calls from SchoolMessenger.

Messages

The SchoolMessenger app's Messages page displays all messages (voice, email, or text) sent to you from your school and/or district during the last 30 days, as well as the messages and conversations that have taken place in the SchoolMessenger app group(s) you have joined.

They are sorted newest first, oldest last. The headings of all messages will appear on the left side of the Messages screen.

There are two types of messages:

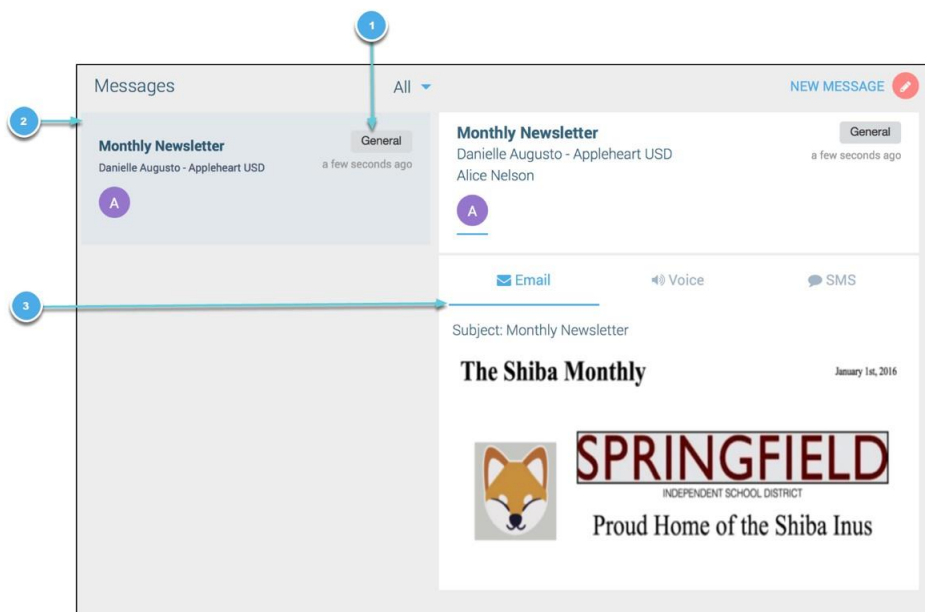

- **Broadcast Messages:** Sent by the school or district as SchoolMessenger Broadcasts to school-affiliated users (Emergency, Attendance, General, etc.).
- **Teacher-Sent Messages:** Messages sent initially by teachers either publicly or privately to participants who are members of a SchoolMessenger app group.

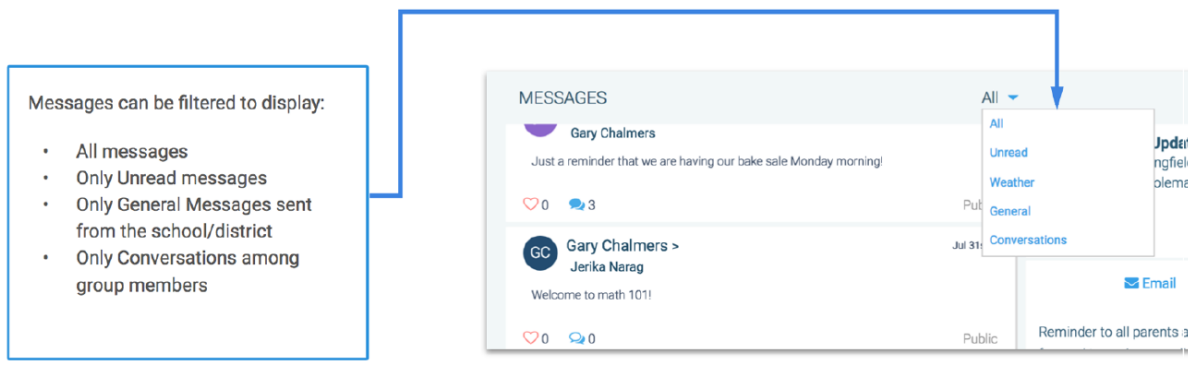

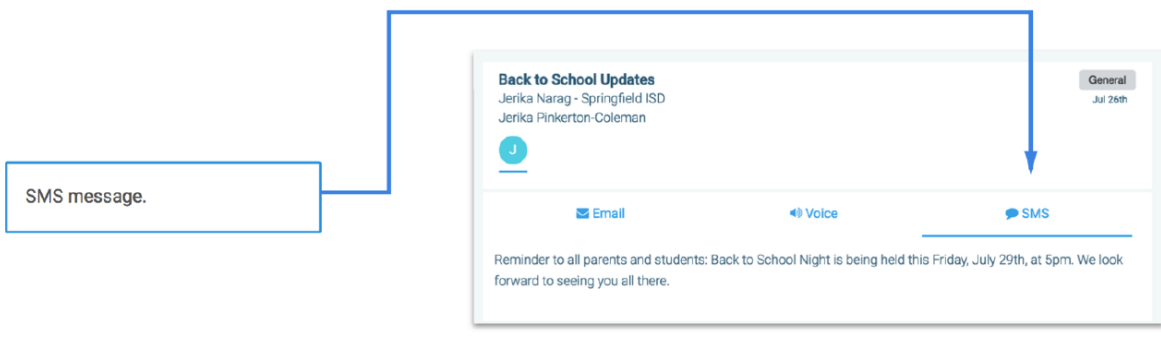

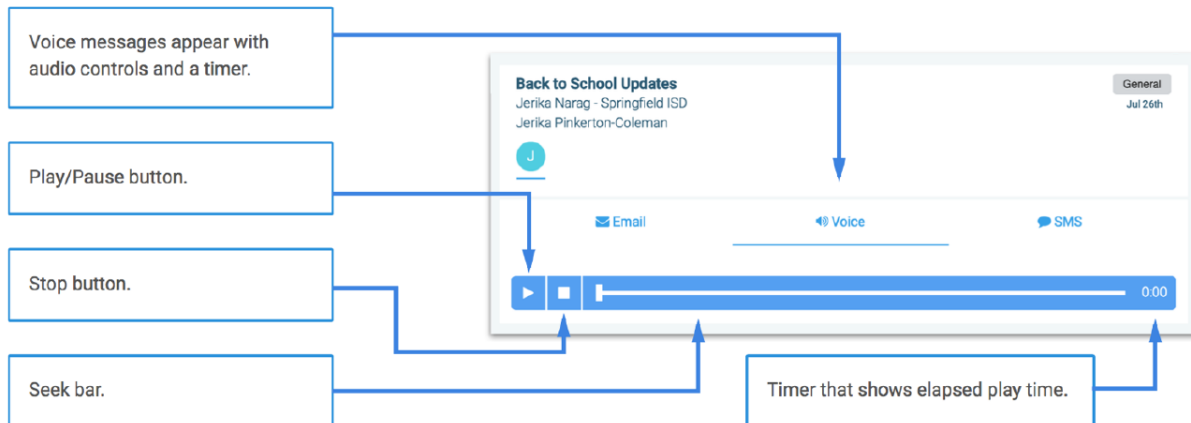

Broadcast Message

These are messages sent by the school or district and are not meant to be replied to or engaged with within the SchoolMessenger app. Below is an example of how a broadcast message looks like in the SchoolMessenger app.

1. Broadcast messages are labeled with their type in the upper right-hand corner of the message.
2. Selected messages to be read will be highlighted in blue.
3. The message view type (Email, Voice or SMS) will be highlighted with a blue line.

Log Out
