Michelle Martino, Assistant Principal

February 2019

Dear Parents/Guardians,

As presented at Roosevelt Middle School on January 14, 2019, the district is in the process of selecting a new math program for grades 6-8. At the January presentation, Reveal and Ready Math Programs were presented by the District Selection Committee as the top two choices.

We are writing to inform you that the West Orange School District will be piloting both Reveal and Ready Math Programs within the next two units of study. Math 6, Math 7, and Math 8 students will bring home new textbooks, workbooks, and/or handouts from both programs.

Please be advised that piloting activities will not interfere with the planned instruction. All piloting activities align to the district curriculum scope and sequence and the NJSLs. Should you have any questions, please feel free to email your child's math teacher.

Sincerely,

A handwritten signature in black ink that reads "Robert J. Klemt". The signature is written in a cursive style with a large, prominent initial "R".

Robert J. Klemt
Principal
