1. OVERVIEW OF WEST ORANGE PUBLIC SCHOOLS CHROMEBOOK PROGRAM

1.1 Program Overview

As we navigate the 21st century, excellence in education requires that technology, including access to the Internet, be readily available and seamlessly integrated throughout the educational process. The primary technology tool of these 21st century students in West Orange Public Schools is the Chromebook: a web-oriented device that provides the opportunity to connect student learning to all the resources and information available online, anywhere at any time.

The policies, procedures, and information contained herein apply to Chromebooks and all other technology devices provided to students in the West Orange Public Schools. The Chromebook, other District-issued devices, and email/Google accounts are owned and managed by the West Orange Public Schools and, as a result, may be subject to inspection at any time. The student should have NO expectation of privacy of materials when using District-Owned Chromebooks and all District services, including Gmail accounts, where applicable.

1.2 Installed Software: Google Workspace

- All Chromebooks are supplied with the latest Google Chrome Operating System (OS). The Chrome OS will automatically install updates when the computer is shut down and restarted. There is no need for virus protection with the Chrome OS. Chrome provides multiple layers of protection against viruses and malware, including data encryption.

- Chromebooks seamlessly integrate with Google’s Workspace is a platform of productivity and collaboration tools (previously called Google Suite for Education). Google Workspace includes Google Docs (word processing), Google Sheets (spreadsheets), Google Slides (presentations), Google Drawing, Sites, and Forms. Google Workspace is a free service that is designed to:
  - Provide students with access to current technology applications and free tools designed to promote collaboration between students and teachers;
  - Give students the ability to work on their documents in school, home, or any location that is connected to the Internet via a laptop, desktop, or mobile device.
  - Provide students with the ability to work collaboratively, engage in peer-editing of documents, and publish their work to be viewed by teachers and other students in the classroom.

- The District provides Google Workspace accounts for all administrators, teachers, students, and support staff. Additional apps may be installed (pushed out) remotely to Chromebooks by the Technology Department to support teaching and learning. The list of approved apps and extensions will be listed on our District Website under the Technology Department Webpage.

- Students will create and save their school-related files to Google Drive, which is stored in the cloud (Google servers). Students can access their West Orange Public Schools’ Google Drive from their Chromebook or any other computer device with Internet access.

1.3 Student GMail Accounts

- Students in grades 4-12 are assigned a District email through Google Workspace that is managed by West Orange Public Schools. The @westorangeschools.org e-mail access provides a standardized
e-mail address to every student for school-related communications. If you wish, you may read more about the privacy, domain concerns, and parental controls, as per the Google Academic Academic Agreement: [http://www.google.com/apps/intl/en/terms/education_terms.html](http://www.google.com/apps/intl/en/terms/education_terms.html)

- Students in grades 9-12 will have extended services on their email addresses that permit them to receive and communicate with users outside of the West Orange Public Schools. For example, students in grades 9-12 may have their District email addresses in Naviance in order to communicate with colleges.
  - Grades K-3: Gmail is turned off
  - Grades 4-8: Walled Garden (only internal communication is possible with @westorangeschools.org domain; external emails are blocked)
  - Grades 9-12: Complete Gmail functions

- Email is monitored by the District’s Technology Department and is subject to the filtering of inappropriate content. Students are expected to adhere to District’s Acceptable Use Policy and the rules/regulations outlined in the WOBOE policies, including, but not limited to the following; [ACCEPTABLE USE OF COMPUTER NETWORKS/EQUIPMENT AND RESOURCES (M) (2361), SCHOOL DISTRICT PROVIDED TECHNOLOGY DEVICES TO STUDENTS(7523)](http://www.google.com/apps/intl/en/terms/education_terms.html)

### 1.4 District Software, Apps, and Extensions

- The following is a list of District approved software: [District Approved Software](http://www.google.com/apps/intl/en/terms/education_terms.html)

- Extensions and Add-Ons are custom features that users can add to the Google Chrome browser to enhance the functionality of apps. The District will install additional apps, extensions and add-ons as they are recommended by staff/administrators and reviewed, approved by the Department of Technology.

- Any software app that does not conform to the District’s policies or that is deemed inappropriate for use in school will not be accessible by students via their network accounts.

### 1.5 Home Use

- Students are encouraged to use their Chromebooks at home and other locations outside of school. A WiFi Internet connection will be required for the majority of Chromebook use; however, some applications can be used while not connected to the Internet. Students using District-issued Chromebooks are bound by the policies and procedures of the West Orange Board of Education as well as local, state, and federal laws.

- The District provides content filtering both on and off site, however, parents are encouraged to provide a safe environment for students to use their Chromebooks at home for school assignments. The District’s Internet filter is compliant with CIPA ([Children’s Internet Protection Act](http://www.google.com/apps/intl/en/terms/education_terms.html)), allowing for the protective measures that block or filter Internet access to pictures that are: (a) obscene; (b) child pornography; or (c) harmful to minors (for computers that are accessed by minors).
2. GENERAL INFORMATION/GETTING STARTED

2.1 Receiving Your Chromebook
Chromebooks will be distributed in schools during selected dates and times. In addition to receiving a Chromebook, each student will receive an AC charger. Before a Chromebook and accessories are issued to a student, the parent(s) and students must read, accept and sign the following:

- West Orange Public Schools 1:1 Chromebook Agreement Form

2.2 Insurance Plan

- The Chromebooks issued to students in grades 7-12 are fully insured. The insurance protection covers any type of device malfunction, including:
  - Hardware
  - Accidental Damage (drops/spills/cracked screens)
  - Theft

- Damages that result from abuse or neglect are the responsibility of the student and subject to fees, including the cost of full replacement of the device and the per unit Google EDU device management license fee.

- In the event of theft, vandalism, or other criminal acts, the student/parent/guardian MUST file a report with the local police department and submit a copy to the school administrator (principal, assistant principal). A replacement device will not be issued to the student until a police report is submitted to the school administrator(s).

- The fee for a lost Chromebook will be the full replacement cost of the device, as listed in section 7.2 Fees and Fines. A replacement device will not be issued to the student until payment is submitted for the replacement cost of the Chromebook.

2.3 Returning Your Chromebook

- Students withdrawing or transferring from the school District, by either promotion, graduation, or relocation must return their Chromebooks and all District-purchased accessories to the Principal ONE WEEK PRIOR TO DEPARTURE DATE.

- If upon inspection of the device, there is evidence of abuse, neglect or intentional damage, the student/parent/guardian will be charged a fee for needed repairs, not to exceed the replacement cost of the Chromebook.

- Failure to turn in the Chromebook and accessories will result in the student/parent/guardian being charged the full replacement cost and will delay the issuing of student/transfer records. If payment is not received, the matter will be turned over to a collection agency. Any Chromebook not returned will be considered stolen property and law enforcement agencies will be notified.

- If the Chromebook is not returned in good condition and the District refers the matter to a collection agency and/or files a complaint in the Superior Court of New Jersey to obtain a judgment for the full replacement cost of the Chromebook and accessories, the District will be entitled to have included in
any judgment amount awarded reimbursement of the costs of collection, including reasonable attorneys’ fees.

3. CHROMEBOOK USAGE

3.1 Student Responsibilities for Care and Maintenance

Student responsibilities include:

- Following the recommendations for handling and maintaining chromebooks as outlined in section 4 of this document: Handling and Maintenance of Chromebook
- Following each teacher’s rules and expectations regarding Chromebook use in the classroom.
- Students never use another student’s device nor lend their device to others or leave it unattended.

3.2 Photos and Media Storage

- The use of inappropriate images including violence, abuse, illegal activities, alcohol, drugs, or gang related symbols are not permitted and will result in disciplinary actions.
- Only photos and videos that are for an educational purpose should be saved to student Google Drive accounts. Any inappropriate photos or videos stored in student Google Drive accounts can result in disciplinary action.

3.3 Sound, Earbuds/Headphones

- Sound must be muted at all times unless permission is obtained from the teacher for instructional purposes.
- The uses of ear buds/headphones in class and/or during study times are at the teacher and/or school’s discretion.
- The District will provide students with headphones as necessary for classroom activities and assessments such as NJSLA, online benchmark assessment, etc.

3.4 Printing

- Printing functionality with Chromebooks will be limited. Teachers will encourage and facilitate digital copies of homework and projects.
- Google Workspace documents can be printed from any other computer, in or out of school, that has a printer connection. We encourage digital turn-ins whenever possible.

3.5 Webcam

- Devices are equipped with a webcam which offers students an extraordinary opportunity to develop 21st century communication skills. Webcams are to be used for educational purposes only, under the direction of a teacher or parent/guardian. Examples include:
  - Recording videos or taking pictures to include in a school project
  - Recording a student giving a speech and playing it back for rehearsal and improvement
3.6 Home Internet Access
In order for students to have Internet connectivity, students are permitted to access home wireless networks on the Chromebook. Parents/Guardians or students will need to know the home Wi-Fi password. Please notify your child’s teacher if your child will not have access to Wi-Fi at home.

3.7 Student Passwords
● Student passwords for logging into their Google Accounts will be handed out prior to the start of school or when the student is enrolled and officially attending a school.
● Students must keep personal information secure and private. NEVER reveal your full name, phone number, home address, passwords, or those of other people.

4. HANDLING AND MAINTENANCE OF CHROMEBOOKS
Students are responsible for the general care of the District owned Chromebook. Chromebooks that are broken, or fail to work properly, must be reported immediately to the teacher/library media specialists, in accordance with school procedures. If a loaner Chromebook is needed, one may be issued to the student until his/her Chromebook can be repaired (subject to availability).

**DO NOT TAKE DISTRICT OWNED CHROMEBOOKS TO AN OUTSIDE COMPUTER SERVICE FOR ANY TYPE OF REPAIR. ALL REPAIRS AND MANAGEMENT OF DEVICES WILL BE HANDLED BY THE DISTRICT TECHNOLOGY DEPARTMENT.**

Students may be selected at random by teachers or administrators to provide their Chromebook for inspection of damages or misuse.

4.1 General Care and Precautions
● Chromebook battery is fully charged on a regular basis.
● Do not tamper with the identification tag, or asset tag on the Chromebook.
● Chromebook vents should not be covered.
● Cords, cables, and removable storage devices must be inserted carefully into the Chromebook.
● Chromebooks and chargers should be kept away from food and drinks.
● Chromebooks must remain free of any writing, drawing, stickers, or labels that are not the property of the West Orange Public Schools District.
● Chromebooks must never be left in unsupervised areas in or outside of school. Unsupervised areas include the school grounds, the lunchroom, bathrooms, unlocked classrooms, and hallways.

4.2 Chromebook Screen Care
The Chromebook screen is particularly sensitive and can be easily damaged if subjected to rough treatment
and excessive pressure. Protect the Chromebook screen by following the rules below.

- Do not lift Chromebooks by the screen. When moving a Chromebook, support it from the bottom with the lid closed.
- Clean the screen with a soft, dry anti-static, or micro-fiber cloth. DO NOT use window cleaner or any type of liquid or water on the Chromebook.
- Do not lean or place anything on top of the Chromebook.
- Do not place anything on the keyboard before closing the lid (e.g., pens, pencils, notebooks).
- Do not place anything near the Chromebook that could put pressure on the screen.
- Do not wedge the Chromebook into a book bag or place anything in the carrying case/protective cover that will press against the cover as this will damage the screen.
- Do not poke the screen.

4.3 Carrying Chromebooks
- It is recommended that students carry their Chromebook in a protective case/sleeve.
- Never carry the Chromebook while the screen is open.
- Do not transport Chromebook with the power cord inserted.

4.4 Storing Your Chromebook
- Chromebooks should never be left in vehicles or a location that is not temperature controlled.
- Chromebooks should be stored safely at all times, especially during extra-curricular events.
- Chromebooks should never be shoved into a locker, placed on the bottom of a pile or wedged into a book bag as this may break the screen.
- Chromebooks should never be stored in your backpack with the power cord inserted.

4.5 Asset Tags (Labels)
- All Chromebooks have labels (Asset Tags) attached to each Chromebook.
- Asset tags may not be modified or tampered with in any way.
- Only labels, decals, and stickers approved by West Orange Public Schools may be applied to the device.

5. RESPONSIBILITIES

5.1 Parent/Guardian Responsibilities
The parent/guardian is responsible for the replacement cost of the Chromebook if it is intentionally or negligently damaged or not returned to the District when due. A stolen Chromebook must be reported immediately to the school and the police for the parent/guardian not to be held personally liable for the cost of replacement.

Parents are encouraged to provide a safe environment for their child to use their Chromebook at home for
school assignments. A Wi-Fi Internet connection will be required for the majority of Chromebook use; however, some applications within the Google Workspace can be used while not connected to the Internet.

Parents/Guardians are also encouraged to:

- Set rules for student use at home.
- Allow use in common areas of the home where the student use can easily be monitored.
- Demonstrate a genuine interest in the child’s use of the device.
- Reinforce the idea that the device is a productivity tool to support learning, rather than used as a form of entertainment.
- Become familiar with Internet safety resources such as:
  - http://www.commonsensemedia.org/blog/digital-citizenship
  - http://www.netsmartz.org/Parents
  - http://www.connectsafely.org

By signing the West Orange Public Schools 1:1 Chromebook Agreement Form (Appendix A), parents/guardians commit to the student expectations and understand the consequences for violations.

### 5.2 District Responsibilities

The District will:

- Provide Internet access to students using devices in the District
- Provide Internet filtering of inappropriate materials and content on the device at home, school, and outside the District. West Orange Public Schools’ Internet filter is applied to devices regardless of location.
- Provide a network data storage area. The West Orange Public Schools reserves the right to review, monitor, and restrict information stored on or transmitted via the Chromebook and to investigate inappropriate use of Chromebook resources.
- Provide staff guidance to teach students in doing research and to help assure student compliance of the Acceptable Use Agreement, Trademark and Copyright Laws, and License Agreements.
- Investigate instances of improper student usage or incidents involving inappropriate conduct.
- Have access to all student data and can review student email and Google Workspace accounts in instances of inappropriate conduct or behavior.
- Provide support, troubleshoot, repair, and, if necessary, replace chromebooks
- *The Technology Department does not support personal student-owned devices*

### 5.3 Student Responsibilities

The student will:

- Take care of and maintain his/her Chromebook as outlined in Section 4 of this document (Handling and Maintenance of Chromebooks).
- Bring a fully charged Chromebook to school every day.
Use the Chromebook in a responsible/ethical manner and in ways that are educationally appropriate, following the guidelines outlined in the Acceptable Use Policy (Appendix C) and all District policies.

Follow school rules concerning behavior and communication that apply to Chromebook use.

Immediately notify a teacher, school official, or parent in the instance of receiving an email containing inappropriate or abusive language, or if the subject matter is questionable.

Abide by the principles of digital citizenship, which are part of the West Orange Public Schools’ curriculum. Users must respect the intellectual property of others by crediting sources and following all copyright laws.

Help protect the West Orange Public Schools’ computer system or technological devices by contacting a teacher or administrator immediately about any security problems they may encounter.

Keep passwords and login information safe and secure.

Understand that the Chromebook is subject to inspection at any time without notice and remains the property of West Orange Public School.

5.4 Student Discipline

- If a person violates any part of the Technology Acceptable Use Agreement or any Board policy privileges may be terminated. Access to the school District technology resources may be denied, and the appropriate disciplinary action shall be applied.

- Violations may result in disciplinary action up to and including suspension. When applicable, law enforcement agencies may be involved.

6. SECURITY AND PRIVACY

6.1 Chromebook Security and Inspection

- The District uses a centralized Chromebook management system, which is utilized to change security settings, update software, add or remove applications, and monitor usage.

- Periodic checks of Chromebooks will be made throughout the year.

- Any attempt to change the configuration settings of the Chromebook will result in immediate disciplinary action.

- All activity on the Chromebook and District-issued email account, whether conducted at school or off site, is subject to search as District property.

- Reasons for Chromebook inspection may include but are not limited to the following: functionality, maintenance, serviceability, behavior and violations of the Acceptable Use Policy (Appendix C)

6.2 Network Security

- West Orange Public Schools will be responsible for providing network access and content filtering at
school.

- While the District provides Internet content filtering both on and off school property, parents/guardians are responsible for monitoring student Internet use when off campus and at home.

- The West Orange Public School District makes no guarantee that their network will be running 100% of the time. In the rare instances that the network is down, the District will not be responsible for lost or missing data.

- Students will not be penalized if the network is down and a completed assignment cannot be accessed for class projects, presentations, etc., as this type of network outage will affect all students and staff in the school building.

- The school utilizes an Internet content filter that is in compliance with the federally mandated Children’s Internet Protection Act (CIPA). All Chromebooks will have all Internet activity protected and monitored by the District both inside and outside of school. If an educationally valuable site is blocked, teachers and/or administrators should contact the Technology Department to request that the site be unblocked.

- Attempting to disable or bypass District Internet content filters, including using or attempting to use proxies to access sites that would otherwise be restricted, is not permitted and will result in disciplinary action. Student use of the Internet is monitored on school issued devices.

- Restrictions on the network and computers will block certain functions. Any attempt to bypass these restrictions will be seen as a violation of the Acceptable Use Policy (AUP) and appropriate disciplinary action will be taken.

6.3 Privacy

- As per the Anti-Big Brother Act (N.J.S.A. 18A:36-39 (P.L. 2013, c. 44)), school-issued electronic devices have the ability to record or collect information on user’s activity, both online and offline. The West Orange Public Schools will not use any of these capabilities in a manner that would violate the privacy rights of a student or individual residing with the student.

- All files stored on the West Orange Public Schools Google Workspace accounts or digital network are the property of the District and are subject to regular review and monitoring for responsible use. The review of emails and Internet history may occur at the discretion of the District Administration. Students have no expectation of confidentiality or privacy with respect to the usage or viewing content when using a District-issued Chromebook.

- **IMPORTANT REMINDER:** All students should recognize and guard their personal and private information. While on the Internet, students shall not reveal personal information, including a home address or phone number, or the address or phone numbers of other students.

7. REPAIRS, FEES, AND INSURANCE

7.1 Chromebook Repairs

- Chromebooks that are damaged or fail to work properly must be reported immediately to the teacher and/or library media specialist so that the proper assessment and insurance claim can be created by the
Technology Office for immediate repair. This includes but is not limited to: Chrome OS (operating system), battery issues, loss of Internet connectivity, failure of apps to launch, etc.

- If deemed necessary, a replacement Chromebook will be issued if there is one available.
- The Technology Department will document the issue and collect the device for repair.
- A student borrowing a Chromebook must sign a loaner agreement. Students will be responsible for caring for the loaner and are subject to charges for damages, theft, or loss.
- If a repair is needed due to abuse or neglect, there will be a fee for the repair (see below), not to exceed the replacement cost of the Chromebook. *The school may also refuse to provide a loaner or reissue a Chromebook for repeated or intentional damages.*

7.2 Fees and Fines

- Any hardware/software repairs unrelated to misuse or intentional damage will be covered by the Insurance Plan; however, any intentional damage to the device will incur a cost.
- After two incidents of accidental damage, the student may lose the privilege of taking the device home, and the misuse of the Chromebook may also result in disciplinary action. The District may also require the student to buy additional insurance.
- The following is an estimated cost for the replacement of hardware:
  - West Orange High School
    - Chromebook= $200
    - PowerAdapter= $40
  - Liberty and Roosevelt Middle School
    - Chromebook= $400
    - PowerPack= $40
- *Enclosed please find the step by step instructions to paying for a lost Chromebook or PowerPack via eFunds or check/money order.*

8. APPENDIX A: WEST ORANGE PUBLIC SCHOOLS 1:1 CHROMEBOOK AGREEMENT FORM

9. APPENDIX B: WEST ORANGE PUBLIC SCHOOLS ANTI-BIG BROTHER ACT COMPLIANCE NOTICE

The Anti-Big Brother Act, New Jersey Statutes Annotated (N.J.S.A.) 18A:36-39 (P.L. 2013, c.44), requires that parents/guardians of students who have been assigned a District or school owned device for use outside of school in connection with the District’s academic program, must be notified and informed of the following:

“If a school District furnishes a student with a laptop computer, cellular telephone, or other electronic device, the District shall provide the student with written or electronic notification that the electronic device may record
or collect information on the student's activity or the student's use of the device if the electronic device is equipped with a camera, global positioning system, or other feature capable of recording or collecting information on the student's activity or use of the device."

This document serves as notice that the West Orange Public Schools shall not use any of the capabilities in a manner that would violate the privacy rights of the student or any individual residing with the student while they are using the device outside of school. Before your child is permitted to use any District owned device outside of school, parents/guardians must sign the “Consent to Anti-Big Brother Act” stating that you understand and accept the Anti-Big Brother Act and agree to discuss it with your child.

10. APPENDIX C: ACCEPTABLE USE POLICY

BACKGROUND
The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. It provides access to the World Wide Web, information and news groups, experts in various fields, university library catalogs, the Library of Congress, etc.

Internet access is available to students and teachers in the West Orange Public Schools. We are very pleased to bring this access to West Orange and believe the Internet offers diverse and unique resources to both students and teachers. Our goal in providing this service is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication.

However, with access to computers and people all over the world also comes the availability of material that is not of educational value in the context of the school setting. On a global network, it is impossible to control all materials and an industrious user may discover controversial information. We firmly believe that the valuable information and interaction available on this worldwide network far outweighs the possibility the users may find material not consistent with the educational goals of the District.

1. Guidelines
   - Vandalism and/or harassment will result in the cancellation of the offending user's access.
   - Vandalism is defined as any malicious attempt to harm or destroy data of another user or any networks that are connected to the system or the Internet backbone. This includes, but is not limited to, the uploading or the creation of computer viruses.
   - Must be in support of education and research consistent with District policy.
   - Must be consistent with the rules appropriate to any network being used/accessed.
   - Unauthorized use of copyrighted material is prohibited.
   - Threatening or obscene material is prohibited.
   - Distribution of material protected by trade secret is prohibited.
   - Use for commercial activities is not acceptable.
11. LIGHTSPEED FILTER AND CLASSROOM MANAGEMENT SYSTEM

In accordance with CIPA (Children's Internet Protection Act), the West Orange Public Schools’ Technology Department uses a content monitoring system called **LightSpeed Filter** that protects faculty and students from accessing harmful/inappropriate online content, including sites that pose a data privacy/security threat. This system automatically blocks millions of inappropriate, harmful and unknown sites, images, and video. The **LightSpeed Filter** is a cloud-based platform that works across all devices, operating systems, and learning...
environments. All students who are logged in via our District services at home or school are automatically being protected via this system.

The District also uses the **LightSpeed Classroom Management** tool that works in conjunction with the **LightSpeed Filter**. This classroom management tool empowers teachers with real-time visibility and control of their students’ digital workspaces and online activity.

Through the use of the **LightSpeed Classroom Management** platform, teachers are able to:
- See individual student screens in real-time
- Limit students to web zones, ensuring no one browses Web content outside what teachers want them to access
- View student browsing history
- Send instant messages to students device screens
- Direct message an individual student and, if necessary, close windows/tabs on their browser
- Enable screen sharing for collaboration between students

It is important to note that we take data security and student privacy very seriously. For the purpose of maintaining privacy, the use of the LightSpeed Classroom Management System is used strictly when schools are in session and during the specific window of the District’s instructional schedule 7:15 am-3:30 pm.

The ability to view student screens remotely is strictly limited to District-issued chromebook devices unless students sign into our District services with their personal devices via a Chrome browser. The Technology Department will not be able to filter inappropriate content nor will teachers be able to assist or monitor students via the LightSpeed Classroom Management system unless students are using a District-issued device or they are logged into our District services on their personal device via a Chrome browser. Please visit our LightSpeed Filter, Classroom FAQs for more information, including directions on how to enable and disable the syncing of District services when using a personal device to ensure privacy.

**12. FERPA**

Access to, Correction of and Release of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access.

   Parents or eligible students should submit to the school principal, or appropriate school official, a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate. Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write to the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or
eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the West Orange Public Schools discloses education records without consent to officials of another school District in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

13. CLEVER

West Orange Public Schools uses Clever as an instructional portal that helps teachers and students have a great experience with digital learning programs. Clever badges are provided to students in self-contained classes and in grades PreK-3 to easily log into the Chromebook and Clever. Clever badges will be provided by the Teacher. If any assistance is needed with Clever or Clever badges, please contact the teacher.

Resources

- Access Clever (staff and students)
- List of Clever Apps

14. TECHNOLOGY WORK ORDERS

Parents or students should complete the Parent/Student Technology Service Request Form when technical support is needed. Requests are handled in the order they are received. Please note that the Technology department will communicate via email or call if necessary. We recommend completing the Technology Service Request Form; however, if you need to reach us, please call our Hotline at (973)435-9637.
