September 26, 2021

Dear Gregory School Community:

This correspondence serves as notice that there has been a confirmed case of COVID-19 reported at Gregory Elementary School that the district was made aware of on Friday, September 24th.

Contact tracing has been conducted and any individual identified as a close contact has been notified. The necessary quarantine has been implemented to restrict further spread of the virus. School personnel have already notified parents/guardians for any student affected and, likewise, administration notified staff affected by such instances of positive cases. If you have any questions about your child’s need to quarantine, please contact your school nurse or building administrator.

As always, we appreciate our community’s support and cooperation. Please continue to follow social distancing, mask wearing and hygiene protocols both in and outside of the school environment, as this is essential to keeping our programs operating. The assessment of our operations continues and determinations will be made in the best interest of safety.

Please note that additional, district-wide case information can be found on the district website on the COVID 19 Dashboard.

I thank you in advance for your time and attention and wish you a pleasant day.

Sincerely,

J. Scott Cascone, Ed. D.
Superintendent
