February 25, 2022

Dear Kelly Elementary School Families,

This correspondence serves as notice that there has been a confirmed case of COVID-19 reported at Kelly Elementary School. Contact tracing is being conducted and notifications to students and staff are taking place. The necessary quarantine has been implemented to restrict the further spread of the virus.

School personnel will notify you if your child is affected and, likewise, administration will notify staff affected by such instances of positive cases. If you have any questions about your child's need to quarantine, please contact our school nurse or my office.

Please note that additional, district-wide case information can be found on the district website on the [COVID 19 Dashboard](#).

Thank you for your time and be well.

Sincerely,

*Joel Castillo*

Mr. Castillo, EDS

Principal
